All times shown are in **Eastern Standard Time**

March 2004 Programming

| Date | Time | Student Guide | Module | Course Description | Target Learners |
|------|--------|---------------|--------|---|--|
| 4th | 5-7pm | YES | 1 of 1 | <p>Electronic Transmission Diagnostics Starting Points</p> <p>This episode will be dealing with 4L 60 and 4L 80 Transmissions. We will examine the transmission, breaking it down into its different components and discovering the starting points that a technician needs to proceed through diagnostics. Bring your questions on Transmission Diagnostics to this session so that our hosts can provide advice and help you increase productivity.</p> <p>To call in during the broadcast, please call 1-877-813-2277.</p> |  Intermediate Technicians |
| | 8-10pm | | | | TSS, ISC, Fleet |
| 11th | 5-7pm | YES | 1 of 1 | <p>Supplemental Inflatable Restraint (S.I.R.) Overview</p> <p>Our hosts will examine the 2 stage system of S.I.R, reviewing the different disabling zones and detailing how to disable the system – useful after collision or in the diagnosis of other vehicle equipment. We will investigate the sensing and diagnostic module along with side impact systems. Bring the latest S.I.R. issues to this session and quiz the experts.</p> <p>Our subject matter experts are available at any time throughout the broadcast at 1-877-813-2277.</p> |  Technicians (All Levels) |
| | 8-10pm | | | | TSS, ISC, Fleet |
